A message from the President

As we reflect on the journey of this past year, I want to begin with a heartfelt thank you.

To our customers — thank you for placing your trust in us, growing with us, and allowing us to be a part of your success. To our team — your dedication and resilience have shaped who we are. It's because of each of you that we continue to move forward with purpose.

I'm proud to share an important evolution in how we express that purpose.

For many years, we've proudly carried the identity of 'The Label People'. That name reflected our roots and the essential products that helped us build strong relationships within the horticultural industry.

But we've grown — not just in size, but in mindset, capabilities, and vision.

Now we're excited to introduce a new chapter in our story, guided by a new vision: 'Rooted in Growth'.

This change speaks not only to the growers we serve, but to who we are becoming as a company. We're investing in innovation, expanding our offerings, and deepening our commitment to helping our customers grow — literally and figuratively. And we're holding ourselves to that same standard of growth.

Rooted in Growth is more than a tagline. It's our renewed commitment to being more than a supplier. We are your partner in success, advocates of sustainable practices, and a team that's growing right alongside you.

Thank you for being part of this journey with us. Here's to the future we'll grow together.

From my family to yours, we wish you the best in the upcoming year!

With warm regards,

Paul Lofgren, *President*

Label Design Software

TAGGIT® Pro Labeling Design Software and Database has the features to help you design and print tags and labels with ease.

- Microsoft ready
- Batch printing
- Full-featured database construction capabilities
- Utilize TrueType fonts, bar codes, preset formats for all our labels and graphics capabilities
- Free phone support from SATO 704-644-1660
- Includes plant database designed by SATO with over 4500 records
- Editable to add additional varieties or information.

NiceLabel® Designer Express delivers a familiar Microsoft Word-like user experience. This means anyone can quickly design professional labels without previous knowledge of barcoding or designer training. Print accurately and consistently without printing errors. Printing labels with dynamic data is different from printing other types of documents. The labeling system needs to enable production and warehouse staff to print quickly and without errors. NiceLabel comes with an all-in-one printing form that helps users print accurate labels without the risk of error.
